

## Deceived

Saint

You've made a deal  
A web to deceive  
On certain dreams  
Shadows the moonlight  
Cast your lots  
To a darkened room  
A silence so cold  
Shadows the screams

"Break this" It's part of my flesh  
"Drink this" To remember my death  
"Write this" On your cold, cold heart  
"Read this" And forget me not

Love is here to mend your heart  
You don't have to be apart no more  
Take the time  
Free your mind  
Wake up and see  
What you are to me  
Cast your lots  
To a darkened room  
A silence so cold  
Shadows the screams  
It's part of my flesh  
To remember my death  
In your heart  
And forget me not  
God is now!
