Intro

Your lonely girlfriend is siting down around and high
That's killing me, that's me

Fucking morning in your eyes are frozen lies
That's killing me, that's me

You're risin'
You're risin'
You're risin'
Risin' down

Make trade fair in your head
little nightmare living out for years, years

But you still risin' down like a fading train
aeroplane smoking your pain

Risin', Fuckin', morning glory
see you out there, just don't worry
