

SHE SAID

Sako

She said I drink too much
I care, I care, I care
She said I love you so much
I don't care, I don't care, I don't care
But if you'll try to stay
I will love you for just one day

She said I lost my mind
I will help you every night and day
She said you broke my hearth
But it's OK, it's OK, it's OK

But if you'll try to stay
I will love you for just one day

I hope you see my scars and tears
I still remember perfect days
