Good Song

Salem Al Fakir

I wanna give you a good song
Something you may need when you see things in grey
Sometimes we all need to sing a long
Just let it out push your heartache away
Girl I have seen you've been struggling
Trying to figure out why they left you behind
I know just how misereble you been
So let me help you find a way to make sweet music again

Sometimes we all have bad days
When everything feels far away
If you ever let me I do my best to ring you up again

I hope you one day decide if
Upon the things in life should bring you down
We all fell better without it
So let it out don't you keep it inside

It won't be no surprise
If you suddenly rise again
To be the one you were before
Just let love be your guide my friend
And you will never fell the same again
Just let me tell ya ‘cause I know
Sometimes we all have bad days
When everything feels far away
If you ever let me I do my best to ring you up again

Just let me and I won't never stop no no

Sometimes we all have bad days
When everything feels far away
If you ever let me I do my best to ring you up again

Just sing a long now
Lalalalalalalalalalalalalalalala

Sometimes we all have bad days
When everything feels far away
If you ever let me I do my best to ring you up again
