Decadence In Solitude

Salem

Speak in numbers
Calculate
Don't you dare break all which I fake

Chips and numbers grind my life away
to fuel my hate for you
Cheers to our demise

While you kill time, cyberspacing
Time is killing you, hyperaging

Serve the master you created
Paint the A. dream Washington green
Decadence in soiltude

Time to bring the empire down

Now you are under a virtual spell
Slaves to your own invention
Life slips away
Slowly despair creeps in

While you kill time, cyberspacing
Time kills you, hyperaging
