

## Once Upon A Lifetime Part Iv

Salem

I am the eyes of my new religion  
You are it's heart and soul  
You are the new face on my new television  
About to take control

(What do we leave behind but painful memories?  
What'll be on my mind when heart and blood flow cease?)

I am the arms of my new religion  
Your part makes me whole  
Your show is top rated on my television  
Sucks me in like a black hole

I wish my breath could roam inside you  
And dissipate all fear  
I hope you'll let our home surround you  
Even when we're not here

I am the mouth of my new religion  
You're the actor with the lead role  
Someone please turn on my new television  
Guarding life is my main goal

(Was there a point in time you felt at your prime?  
Was life a progressive clime or just a successive decline?)

I'll gladly die for my new religion  
All for one and one for all  
There's only truth on my brand new television  
Life's a never ending ball

I wish my breath could roam inside you  
And dissipate all fear  
I hope you'll let our home surround you  
Even when we're not here

I am the eyes  
You are the soul  
I am your life  
You are my all

This was my entire agenda  
There goes your lullaby  
A day will come and you'll comprehend it  
For now this was my fair goodbye

(One small step for men,  
One giant leap for mankind)
