

Animal

Saliva

I am an animal

Been separated from the world I know
Been isolated, hated down to the bone
They tried to cage for the things I've done
Because I'm a sick one looking for victims
And I'm addicted to the blood

You better run
You better run
You better run

I am an animal
I can't control myself
I am an animal
Living for the kill

I've got my demons bowing down on their knees
No one can stop this hunger buried in me
Your desperation's got me chasing the thrill
And I'm the sick one, you are the victim
And I am living for the kill

You better run
You better run
You better run
You better run

I am an animal
I can't control myself
I am an animal
Living for the kill
You keep on running but you'll never survive
I am an animal, animal inside

I am an animal
I can't control myself
I am an animal
Living for the kill
You keep on running but you'll never survive
I am an animal, animal inside

Animal inside
I am an animal
