

# No Hard Feelings

Saliva

All the pain that haunts me still  
And all the shame surrounding you  
And all the past that I can't kill  
Forever wrapped around me

And all the sadness in our lives  
And all the things that I can't hide  
And all just a fear thats deep inside  
From all the years of hiding

Theres a ghost thats inside of my mind  
And a pain that is haunting me still  
So I can never go back and rewind  
And I can never have peace or be still

somebody take this away!  
somebody take this away!  
somebody take this away!  
somebody take this...

They took you far away from me  
So I could never find you  
They made me blind but I can see  
The loaded gun behind you

The end of everything we knew  
Inside of me and inside of you  
I miss the way we used to be  
When I was what would bring you through

Theres a ghost thats inside of my mind  
And a pain that is haunting me still  
So I can never go back and rewind  
And I can never have peace or be still

somebody take this away!  
somebody take this away!  
somebody take this away!  
somebody take this...

No hard feelings(6x)

somebody take this away!  
somebody take this away!  
somebody take this away!  
somebody take this...
