

Rock & Roll Revolution

Saliva

What's this monkey business going on today
You music business whores are all about just getting paid
You throw your shit against the wall and see it doesn't stick?
Been tired of standin' round and watchin' while you make me sick

You hide and choke on all the issues of your time
You'll never save the world if all you do I whine
To tell the truth I think it's best you step aside
'Cause real rock 'n roll ain't never gonna die

So I say hell yeah
The rock n roll revolution
There ain't no confusion baby
And I'm not gonna take your shit anymore
You're not an artist, you're a whore

Straight up, stripped down, turned up, kick ass rock 'n roll
It's the only thing that's still around that's gonna save our souls
So get down on your knees and pray to the gods of old
'Cause rock n roll's a revolution and it's takin' hold
