

Sand Castle

Saliva

All the pain that's in my heart
And all the pain that's in my head
Is building castles in the sand
Building castles with my hands

And the rain is falling
Falling down on me
And the rain is falling
Falling down on me, on me, on me, on me

All the pain that's in your heart
All the pain that's in your head
It's gonna tear your little world apart
Leave you broke and left for dead

And the rain is falling
Falling down on me
And the rain is falling
Falling down on me, on me, on me, on me

Is she gone? Is she gone?
Is she the really the one or can she leave me alone?
Is she the one that made me yearn for the day?

Is she the one that just threw me away?
Is she gone? Is she gone?
Is she really the one or can she leave me alone?
