

# Toxic Suicide

Saliva

Take my bottle away  
And my heart is in your hands  
Take my pills away  
Or you'll never understand  
Been so close to the edge  
I know that I cannot walk away

Toxic suicide  
Toxic suicide  
Toxic suicide  
As the world goes black  
And the sky is falling down

Send my pain away  
Moments I can't face  
Send my world away  
Until I can find another place  
Been so close to the edge  
I know that I cannot walk away

Toxic suicide  
Toxic suicide  
Toxic suicide  
As the world goes black  
And the sky is falling down

Cut from love  
And pushed and shoved  
Until I'm in hell below  
I've wrestled rage  
And turned the page  
But the devil runs the show

Toxic suicide  
Toxic suicide  
Toxic suicide  
As the world goes black  
And the sky is falling down

Toxic suicide  
Toxic suicide  
Toxic suicide  
As the world goes black  
And the sky is falling down
