

In the Heat of the Night

Sally Oldfield

Summer nights I'd wait for you
No tangles in my mind
And everything was new
I relive the memory
Something in my heart is saying
This is reality
It can be if you believe

R:
In the heat of the night
You're really here
Till the morning light
In the heat of the night
We'll keep love burning
So warm and bright

As I walk on back through time
I can feel the scent of rain
And your hand in mine
Stolen glances in the crowd
Till one day
I found a way
To tell you right out loud
Tell you that I wanted you

R:
Be my love, the way you used to be
It feels so good
Now you're here with me
Be my love, baby hold me tight
Oh I believe
You're really here tonight

R:
