

Keep The Fire Burning

Sally Oldfield

You come to me like rain on desert sand
And in the cool night I feel the warmth of touching hands
And when you move in closer I can feel a love so healing,
Healing and it's coming on strong and
It's lighting up the night!

R:

Keep the fire burning! light it up tonight,
Keep the fire burning! come on, come on the time is right,
Keep the fire burning, keep the lovin' coming,
We can turn it on, we can live it up,
We can light a flame in the night!

You're touching me with a fire so sweet
And it's taking me over from my head down to my feet
And when you look at me I want you more and more,
I never felt this way before and I
Never knew a love so strong
And it's lighting up my life!

R:

We can light it up! We can light it up!
We can light it up! We can light it up!
I never knew a love so strong
And it's lighting up my life!

R: (x2)
