

Man Child

Sally Oldfield

The desert is warm, man child
My heart grows wild, ooh I want to hold you
Now the night is closing in!

Hold me too, I reach for you!
Its holy ground and heaven is streaming down
Lighting the place we lie in
Man child! Home is where I find you
And I'm never gonna live you no more
Come on in and close the door!

The night is quiet, man child!
My heart is beating like a drum from a strange land
Under the touch of your hand!

Hold me too, I reach for you!
So many nights I've lain awake and dreamed about you
But now its just the sweet unknown
Man child! You're giving me what I'm needing
And I'm never gonna leave you no more
Come on in and close the door.
