

My Drumbeat Heart

Sally Oldfield

Oolah-kalu-kalu-kalandeya...
Never-ending my drumbeat heart is beating out
a song for the sun,
Undivided, the endless light is shining down on everyone,
Then came the word "Let there be light, let there
be fire moving on the water!"
Then came the word "Let there be sky, let there
be stars, let there be creation!"

Oolah-kalu-kalu-kalandeya...
Never-ending my drumbeat heart is beating out
the joy and the pain,
Undivided, I feel the earth is turning round,
bringing down the rain,
Then came the word "Let there be night, let
there be day moving over the land!"
Then came the word "Let there be life, let there
be death and the joining of hands!"

Never-ending my drumbeat heart is beating out
the song for the sun,
Undivided, the endless light is shining down on everyone,
Then came the word "Let there be light, let there
be fire moving on the water!"
Then came the word "Let there be sky, let there
be stars, let there be creation!"

Oolah-kalu-kalu-kalandeya...
