

## Path With a Heart

Sally Oldfield

I search the night for signs of life and love  
I travel endlessly, no time for rest or sleeping  
I search the ground for footprints of my kind  
Love is the only thing that will ever ease my mind

R:

The road grows cold, the night is coming down  
Far in the distance I can hear the drumbeats sound

My heart tells me, deep in the forest burns a light  
Somebody, somewhere, never sleeps, waiting for me  
To find him in the night  
Love is the answer, you can follow it in the dark  
The path with a heart. The path with a heart

R:

My heart tells me, deep in the forest burns a light  
Somebody, somewhere, never sleeps, waiting for me  
To find him in the night  
Love is the answer, you can follow it in the dark  
The path with a heart. The path with a heart

My heart tells me, deep in the forest burns a light  
Somebody, somewhere, never sleeps, waiting for me  
To find him in the night  
Love is the answer, you can follow it in the dark  
The path with a heart

My heart tells me, deep in the forest burns a light  
Somebody, somewhere, never sleeps, waiting for me  
To find him in the night  
Love is the answer, you can follow it in the dark  
The path with a heart  
The path with a heart  
The path with a heart  
The path with a heart
