

# Playing In the Flame

Sally Oldfield

I was born where the nights are warm  
In the ancient land of my fathers  
Every game was wild and untamed  
Playing in the flame! Playing in the flame!

Come talk to me now the sun is newly risen  
Let's make it the start of a new day  
Every word and action comes straight from the heart  
When you're Playing in the flame! Playing in the flame!

Come tell me babe just what you're really feeling  
It's the only thing that I understand  
Wanna give to you all the things that I can  
Playing in the flame! Playing in the flame!

Let's see how bright we can make it burn,  
Every moment's for learning  
It's passion I want to give to you!  
And it feels like I'm burning, Babe I'm burning!

Closer! Come closer my love!  
I wanna throw some wood on the fire,  
I wanna whisper a secret desire,  
Playing in the flame! Playing in the flame!

You're touching me with a rare lightning,  
It's healing the pain,  
Every word and action comes straight from the heart,  
When you're Playing in the flame! Playing in the flame!
