

## Silver Dagger

Sally Oldfield

Driving in the wind an rain as evening comes  
Longing to see him again I've been away too long  
But in the moonlight I can feel my heart is beating like a drum  
A wild suspicion flashes dark across my mind  
Walking up the driveway I can see another woman by his side  
I held my hand out and this is what I cried

"Here's a silver dagger, present for the bride  
Silver dagger, shining in the night"  
Shining in the night  
Shining in the night

She offered me a cup of red, red wine  
Said "Won't you try to have a good time"  
I turned my eyes on to her face and I could read all the lines  
I said "Whatever you try to do you know he's mine"  
Walking up behind her I could see her face grow cold  
I said "A gipsy's curse is on you and on everything you hold"

"Here's a silver dagger, present for the bride  
Silver dagger, shining in the night"  
Shining in the night  
Shining in the night

"Here's a silver dagger, present for the bride  
Silver dagger, shining in the night"  
"Here's a silver dagger, present for the bride  
Silver dagger, shining in the night"  
Shining in the night
