

## Song of the Lamp

Sally Oldfield

Babe the night is warm! I'm coming home  
Is where the heart is beating  
Babe the moon is young! just like  
We've never been gone, a vigil its been keeping.

See my lamplight its still burning!  
Do you want to take a light from mine to feed your flame?  
Though I've been gone so long, the light's been shining on  
Guiding me home through the wind and the rain.

See the swallow fly, he's seeking  
The warmth of clearer skies  
Babe it's growing colder, the summer  
The summer is nearly over.

See my lamplight its still burning!  
Do you want to take a light from mine to feed your flame?  
Though I've been gone so long, the light's been shining on  
Guiding me home through the wind and the rain.

See my lamplight its still burning!  
Do you want to take a light from mine to feed your flame?  
Though I've been gone so long, the light's been shining on  
Guiding me home through the wind and the rain.

See my lamplight its still burning!
