Ball And Chain

Sam Brown

With your ball and chain
I watch you tumble down
Are you sure you're sane
In your dream time town
Breaking glass
Shouted screams
They're unimportant sounds
In your broken dream

You're running around living it up
Running around giving it up
Oh oh
You're running around living it up
Oh oh
You're running around giving it up
Oh oh ooh

Well you're completely mad
It's time to go back to school
It's just a little sad
The way you play the fool
It's no surprise
When i hear you say
You're just as bad
There's nothing I can say

You're running around living it up
Running around giving it up
Oh oh
You're running around living it up
Oh oh
You're running around giving it up
Oh oh ooh
