

# Understand The Animal

Sam Brown

Maybe you will love me in the morning  
But you'll love me more if I go when it's time to go  
We spend lazy days  
Reading in the bedroom  
Learning about what's happening in the world  
Baby oh you treat me like a good friend  
And I know that you take me as you find me  
But lately, oh I've got a feeling here inside  
That when I'm out of your sight  
I'm out of your mind

But better the devil you know  
I understand the animal  
Better the devil you know  
I understand the animal  
It's you, yeah it's you, yeah it's you, yeah  
Oh yeah yeah  
You are, I know

If only I could say that you were out of time  
But I'd be saying nothing you didn't already know  
Oh I get lonely but I know you know you're out of line  
I'll see you soon, that's the way it goes

But better the devil you know  
I understand the animal  
Better the devil you know  
I understand the animal  
It's you, yeah it's you, yeah it's you, yeah  
Oh yeah yeah  
You are, I know

But better the devil you know  
I understand the animal  
But better the devil you know  
I understand the animal  
But better the devil you know  
I understand the animal  
But better the devil you know  
I understand the animal

But better the devil you know, I understand the animal  
But better the devil you know, I understand the animal  
But better the devil you know, I understand the animal  
But better the devil you know
