

How To Dream

Sam Phillips

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes

Under normal, we change the wind
Facing every direction
Planted in the future, we live two lives
All to reveal a secret we can't hide

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes

We search the sky, planets chasing the stars
Pulling toward deep affection
Weights and numbers measure a wound that won't heal
All to reveal a secret we can't hide

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes

Ah, ah, ah ahh ah ahh
When we open our eyes and dream
We open our eyes
