Love Is Everywhere I Go

Sam Phillips

Going down this [Incomprehensible] There is no end to the good

Love is everywhere I go Looking through you Love is everywhere I go Looking through you Love is everywhere I go Looking through you

Burning light inside my dreams I wake up in the dark The light is outside my door

Love is everywhere I go Looking through you Love is everywhere I go Looking through you Love is everywhere I go Looking through you

Chasing every fragment I see Looking through you Love is looking for me Breaking open the clouds I'm not stranded in time (Love is everywhere I go)

Looking through you Love is everywhere I go Looking through you Love is everywhere I go Looking through you
