

## Love Is Not Lost

Sam Phillips

Boy, boy meets girl  
And you know the rest  
Boy loses his girl  
In their love's first test

Is this supposed to be a happy ending now?  
Is this the way it always goes?

Girl throws in her heart  
Like a losing hand  
She uses the boys  
'Cause she thinks she'll never find her man

Is this supposed to be a happy ending now?  
Is this the way it always goes?  
Well, I think I want my money back  
Because that's not all I know

Love is not lost  
It's not a lost cause

I meet you  
And you cut my heart  
You shake my ideals  
Until they fall apart

Have I lost it if I hope for something more  
Than feeling fatalistic pain?  
And if true love never did exist  
How could we know it's name?

Love is not lost  
It's not a lost cause  
Don't give up now  
Love is not lost
