## Love Is Not Lost

Sam Phillips

Boy, boy meets girl And you know the rest Boy loses his girl In their love's first test

Is this supposed to be a happy ending now? Is this the way it always goes?

Girl throws in her heart Like a losing hand She uses the boys 'Cause she thinks she'll never find her man

Is this supposed to be a happy ending now? Is this the way it always goes? Well, I think I want my money back Because that's not all I know

Love is not lost It's not a lost cause

I meet you And you cut my heart You shake my ideals Until they fall apart

Have I lost it if I hope for something more Than feeling fatalistic pain? And if true love never did exist How could we know it's name?

Love is not lost It's not a lost cause Don't give up now Love is not lost
