River Of Love

Sam Phillips

There's a river of love that runs through all times There's a river of grief that floods through our loves

It starts when a heart is broken into By the thief of belief in anything that's true But there's a river of love that runs through all time

There's a river of love that runs through all time There's a river of tears that flows through our eyes

We fight through the night for freedom as it fades Into a jail where we fail every time we make a break But there's a river of love that runs through all time

I had to run before I knew how to crawl The first step was hard but I have had trouble with them all But now the night grows darker and the day grows dim 'Cause I know I never will see you again and I almost made you happy

There's a river of love that runs through all time There's a river of fire that burns with no light

The flame is the pain of dreams gone up in smoke From the lies we deny and breathe until we choke There's a river of love that runs through all time
