

## Say What You Mean

Sam Phillips

I'll be desperate, I'll be lonely  
But I won't be ashamed  
No isolation, no terror unnamed  
You animated the dead to your dream  
Say what you mean

Destiny's still locomotive desire  
Magnets set on you and thrown into the fire  
If you get branded and caught in between  
Say what you mean

You'll despise and protect  
You'll fool and you'll grouse  
How hungry are you?  
How much can you loose?

You know what I would do for you  
'Til it gets too late  
Just tell me straight

The secrets that you want to know  
Are yours not mine  
Longing may kill me  
I can't keep my mind

On my destructions  
My drugs and my dreams  
Say what you mean
