

Tell Her What She Wants To Know

Sam Phillips

She's not with you
Now, you think to much about her
Picking up new questions
You don't know, what you don't know
Could you never said
And the quiet doubts about you
Will gather in your head

So, tell her what she wants to know
She'll find out anyway
Oh, tell her what she wants to know
She'll find out
Oh, tell her what she wants to know
She'll find out anyway

Tell her
Tell her

You can't find it
That's when she's gone looking for you
And she leaves you too much room
And this make you feel ignore
Don't let it go
But you won't say you love her
She will see you in yours eyes she'll know

So, tell her what she wants to know
She'll find out anyway
Oh, tell her what she wants to know
She'll find out
Oh, tell her what she wants to know
She'll find out anyway

Tell her
Tell her
