

The Canadian Dream

Sam Roberts

I went out on the street today the Canadian dream was as far away
As it's ever been, as it's ever been
I went out on the street today the Canadian dream was as far away
As it's ever been, as it's ever been

S O C I A L I S M is here to stay
S O C I A L I S M is the only way, hey

Frozen land and frozen minds
Frozen hands and frozen time
Frozen land and frozen minds
Frozen hands and frozen time

'Cause everything moves real slow when it's forty below
Everything moves real slow when it's forty below
Everything moves real slow when it's forty below
Yeah, everything moves real slow when it's forty below, when it
's forty below

S O C I A L I S M is here to stay
S O C I A L I S M is the only way, hey

'Cause everything moves real slow when it's forty below
Everything moves real slow when it's forty below
Yeah, everything moves real slow when it's forty below
Everything moves real slow when it's forty below, when it's forty
below

I went out on the street today the Canadian dream was as far away
I went out on the street today the Canadian dream was as far away
I went out on the street today the Canadian dream was as far away

S O C I A L I S M is here to stay
S O C I A L I S M is the only way, hey
