

# Make It Up

Sam Tsui

I make it up as I go  
I make it up as I go

Does it look like I've got everything under control?  
I'm good at faking it  
The ice is getting thin but I'm the only one who knows  
I'm only making it up

Up on the way,  
Just play it cool and take it day by day  
Do what I can and if they ask me, I say,  
"Hey no big deal, I got it all worked out"

I've got a little confession  
I don't know what I'm doing  
But if you want, you can play along  
Maybe I'll wake  
To find that I went and blew it  
But 'til I do, I'll keep going strong

I make it up as I go, oh oh oh  
I make it up as I go, oh oh oh  
Still haven't gotten it wrong

Don't got no master plan, I don't got nothing at all  
Please don't think less of me  
The chips are in the air, I cross my fingers when they fall  
And make the best of each

Hand I get played,  
Stay on my toes and take it day by day  
Do what I can and if they ask me, I say,  
"Hey no big deal, I got it all worked out"

I've got a little confession  
I don't know what I'm doing  
But if you want, you can play along  
Maybe I'll wake  
To find that I went and blew it  
But 'til I do, I'll keep going strong

I make it up as I go, oh oh oh  
I make it up as I go, oh oh oh  
Still haven't gotten it wrong

And I won't stop 'til I can  
See the dead end with my own eyes  
I've got a lot to prove, oh  
And if I do get stuck,  
I'll just wait for better luck  
And if it never comes, I'll make it up

I've got a little confession  
I don't know what I'm doing  
But if you want, you can play along  
Maybe I'll wake  
To find that I went and blew it

But 'til I do, I'll keep going strong

I make it up as I go, oh oh oh  
I make it up as I go, oh oh oh  
Still haven't gotten it wrong,  
Going strong, I make it up, make it up  
I make it up as I go, oh oh oh  
I make it up as I go, oh oh oh  
Still haven't gotten it wrong
