

## Illumination

Samael

Imagination cannot be stop  
Faster than the light we reach the top  
Coordination of thought and will  
Give us visions that we can almost feel  
We can speculate on any conclusion  
Leading our emotions to any destination  
Can explore from every sensation  
A world is to be found through transformation  
Just like a dream...stronger...stranger  
Just like a dream...the strangest and strongest dream  
Illumination at the end of the tunnel  
Revealed a world behind every hell  
It's sometime worth staying on your way  
Keeping the faith strong and straight 'till the next day  
Just like a dream...stronger...stranger  
Just like a dream...the strangest and strongest dream  
Dream...keep dreaming...dream...  
Imagination cannot be stop  
Faster than the light we reach the top  
Coordination of thought and will  
Give us visions that we can almost feel  
Imagination will lead us to the top  
It goes slow motion but never stops  
Coordination of thought and will  
Give us visions that we can almost feel
