

some say it's hard to get it all  
but what I dreamed is what I am  
I turned my eyes to see it all  
to give you what you're looking for

come the force come the wind come the sun  
into our ring

make me shine make me rain make clear water with blood  
take me high burn me up and tear it all down  
push me out throw in the ocean of love  
make me one make me I  
should I keep you in my wheel should I take you in my arms

if you want what I want  
if you need what I am

come on let's be as one

if you want what I want  
if you need what I am  
come on take me home

step on it stay above I did spoil your life with light  
to let you see what can be if our hearts ever collide

won't you give me a try won't you give me another chance  
won't you give me a try won't you give me another chance

you're here when I'm there  
I see you everywhere  
you're cool you're special  
you're calm and beautiful  
you're a nine you're mine  
and we got along at night

if you want what I want  
if you need what I am  
come on let's be as one

if you want what I want  
if you need what I am  
come on take me home

won't you give me a try won't you give me another chance  
won't you give me a try won't you give me another chance
