

Destined To Be

Samantha Fox

I wanna see the world and all its magic
I wanna take your dreams and make them real
I believe that fate brought us together
And love is the reason we are here

Don't make me wait too long
I know that we belong
I dreamed this day would come

We're destined to be
Don't let the chance go by
Sometimes there is no why
Now I know you and I
Are destined to be

We can make this moment last forever
Just open up your heart and realise
Can you hear the voices of me calling
Can you see the future in my eyes
