

## Destined To Be

Samantha Fox

I wanna see the world and all its magic  
I wanna take your dreams and make them real  
I believe that fate brought us together  
And love is the reason we are here

Don't make me wait too long  
I know that we belong  
I dreamed this day would come

We're destined to be  
Don't let the chance go by  
Sometimes there is no why  
Now I know you and I  
Are destined to be

We can make this moment last forever  
Just open up your heart and realise  
Can you hear the voices of me calling  
Can you see the future in my eyes
