Dreams Unfold

Samantha Fox

Sometimes you've gotta leave what you love To make that love grow strong There comes a time when a voice inside will tell you where you truly belong. You search your heart and you will find The answer has been there all the time

Tonight all my dreams unfold The hand of love has touched my soul The longest journey's reached the end of the road I will never walk alone as my dreams unfold

Goodbye's the hardest word to say Each and every time And if I had to leave this sacred place I would leave my soul behind You search your heart and you will find The answer has been there all the time

Tonight - all my dreams unfold The hand of love has touched my soul The longest journey's reached the end of the road I will never walk alone as my dreams unfold

Close your eyes and you'll hear my call Through every high and through every low Let's prove - we can weather the storm

Tonight all my dreams unfold The hand of love has touched my soul And I've been waiting for this moment For all my life and I'll never let it go The longest journey's reached the end of the road I will never walk alone as my dreams unfold
