

He's Got Sex

Samantha Fox

He's got all you could ever want
He's got the purpose & the style
He's got such an open mind
He's got the walk you'd never find
He's got the roughness in his voice
He's got...my one & only choice
He's got a sweet & tender voice
He's got...but most of all he's got

Sex on his mind
Seems to me he wants sex all the time
I can't believe the way his heart rules his mind
And when he wants it he gets sex all the time

He's got a taste for everything
He gives the kind of state the morning brings
He's got his never ending love for me
He gives what your dreams cause in the night
He's got the kind of love that makes you blind
He gives attention to your tender spots
He's got...hot!

Sex on his mind
Seems to me he wants sex all the time
I can't believe the way his heart rules his mind
And when he wants it he gets sex all the time

Hot! (sex...)

He knows every trick that's in the book
He shoes all the parts that gets you hooked
He looks up at you when he is down
He cooks up a storm & shakes it round
He takes all you got & that's for sure
He gets, mmm, just what he's begging for
He's got... but most of all he's got

Sex on his mind
Seems to me he wants sex all the time
I can't believe the way his heart rules his mind
But when he wants it he gets sex all the time

Sex on his mind
Seems to me he wants sex all the time
I can't believe the way his heart rules his mind
And when he wants it he gets sex all the time

Sex! hot!!!

Sex on his mind
Seems to me he wants sex all the time
I can't believe the way his heart rules his mind
But when he wants it he gets sex all the time
