

Pleasure Zone

Samantha Fox

I want to take you for a ride
To this place called the pleasure zone, pleasure zone
I want to take you for a ride
I want to take you home, take you home

One, two, three
Let's do it

I met you dancing at a club last night
I saw you, baby, you looked so right
If looks could tell you how I feel inside
Then you'd know that you blew my mind

Oh, baby, you're one of a kind
Do you think we could spend some time?
Oh, honey, you're looking so good
Let's take a trip where no one should, let's go

Here we go
I'd like to tell you but I'm not that type
But if you ask me, I will spend the night
It's just a feeling that I get from you
I wonder, if you feel the same way too

Oh, baby, won't you come my way?
Let's get together so that we can play
Come on, baby, give us a try
Let's take a trip to the other side, come on, let's go

Oh, baby, you're one of a kind
Do you think we could spend some time?
Oh, honey, you're looking so good
Let's take a trip where no one should, come on, let's go
