

To Be Heard

Samantha Fox

Who taught you to do the things that you do
I pray
That one day you'll find what you hide inside
Seems to fade and die
You're still left wondering why

There was a place where we rode wild horses
There was a time when we had the voices

To be heard
To be heard

Safe inside run and hide away
From your foolish pride
Another disguise in designer clothes
You were never exposed

There was a place where we rode wild horses
There was a time when we had the voices

To be heard
To be heard

This time I want it to be
This time for real
And I know in my heart I'm here again

To be heard
To be heard
To be heard

Useless words you just disturb my brain
It's the way you say everything's OK
When we've fallen apart and we've lost the heart to

There was a place where we rode wild horses
There was a time when we had the voices

To be heard
To be heard
To be heard
