

Circles on the Water

Samantha Jade

Never liked it safe or slow
We go high, we go faster than them
Take me places no one knows
You and I, we go faster than them

Just a drop to start it over
Once again, once again we begin
We're like circles on the water
Once again, once again we begin

Heard you either have it or you don't
But there's no need for us to try and prove it wrong
'Cause we dive deeper every time we let us go
A drop to start it over, circles on the water

Never needed second thoughts
Wasted time, no it wasn't for us
Betting everything we got
You and I, we don't know how to stop

Just a drop to start it over
Once again, once again we begin
We're like circles on the water
Once again, once again we begin

Heard you either have it or you don't
But there's no need for us to try and prove it wrong
'Cause we dive deeper every time we let us go
A drop to start it over, circles on the water

Never liked it safe or slow
We go high, we go faster than them

Just a drop to start it over
Once again, once again we begin
We're like circles on the water
Once again, once again we begin

Heard you either have it or you don't
But there's no need for us to try and prove it wrong
'Cause we dive deeper every time we let us go
A drop to start it over, circles on the water
