

I have always had a love long dream  
One that came from deep inside of me  
I won't forget the day I realized  
That I could touch a person with my life

I feel that I can fly  
Like a bird that's found her wings  
I don't have to wish no more  
I'm free

I feel I can reach the sky  
And let my spirit get me  
And I will always give the best of me  
I am free

I've always had so many who believed  
I was so lucky to have felt that love and faith in me  
And how near I am today because of the one thing  
That I had in there to help me with my dream

I feel that I can fly  
Like a bird that's found her wings  
I don't have to wish no more  
I'm free

I feel I can reach the sky  
And let my spirit get me  
And I will always give the best of me  
I am free

I feel special (I feel so special)  
I feel so wonderful (I feel wonderful)  
I know there's something great in me  
(Something great, something great)

I've always believed in myself (believed in the person I am)  
And I wouldn't let nothing take that away (and nothing can take that  
away from me)

I feel that I can fly  
Like a bird that's found her wings  
I don't have to wish no more  
I'm free

I feel I can reach the sky  
And let my spirit get me  
And I will always give the best of me  
I am free

I am free
