

# Love Gone Right

Samantha Jade

So over it  
Not into it  
Walking past it  
Knowing what I know (what I know)  
Unknowingly, yea you cut me  
Unexpectedly  
Say you won't let go of me now

I'm re-thinking, I'm re-thinking out the situation (situation)  
How this came out, this came out of all this conversation  
How?

It's so out of hand  
And it's up to chance  
Just what we do with this love gone right  
It's up in the air  
We're so unprepared  
We have to get used to this love gone right

Gone right, gone right  
Gone right, gone right

Let's go round about  
Breathe in, breathe out  
And slow things down (slow it down)  
I'm still catching up

Who with this mix  
Not too serious  
Just when we are  
Is good enough now

Just tell me tell me what would straight your situation  
How, spite of all spite of all of this anticipation

It's so out of hand  
And it's up to chance  
Just what we do with this love gone right  
It's up in the air  
We're so unprepared  
We have to get used to this love gone right (love gone right)

Gone right, gone right  
Gone right, gone right

I hope that you understand  
Love is wrong but then it end  
And I'm just fighting my way  
With this love gone right

It's so out of hand  
And it's up to chance  
Just what we do with this love gone right  
It's up in the air  
We're so unprepared  
We have to get used to this love gone right (gone right)

Gone right, gone right  
Gone right, gone right

It's so out of hand  
So out of hand  
And this time we just  
(With this love gone right)  
Up in the air  
We have to get used to this love gone right (gone right)

Gone right, gone right  
Gone right, gone right
