

# What About Us

Samantha Jade

Uh uh uh uh  
Mmmmmm  
Yea

Yes, shut her down  
Turn away  
I don't see it in your eyes anymore  
Lonely nights, cold days  
Now everything's all torn

Where did we go?  
Where do I stand now?  
I feel like I don't even know you anymore  
Just let me know  
I don't understand her  
How we've ended up this way  
So tell me baby, what about us?

We, fell apart  
Broken vows  
There's the mystery you said we'd never be

Look around  
Can't you see?  
That you're breaking my heart

Where did we go?  
Where do I stand now?  
I feel like I don't even know you anymore  
Just let me know  
I don't understand her  
How we've ended up this way  
So tell me baby, what about us?

And if you're gonna let me go  
Don't ask me to stick around  
Tell me if we'll go our separate ways  
Oh oh

Where did we go?  
Where do I stand now?  
I feel like I don't even know you anymore  
Just let me know  
I don't understand her  
How we've ended up this way  
So tell me baby, what about us?

Where do I stand? Yea yea  
How we've ended up this way  
So tell me baby, what about us?
