

# If You Can't Dance

## Same Difference

If you can't dance baby if you can't dance  
Friday night is coming  
We're just living for the weekend  
I know where we can go

All our friends will be there  
All night long the music's playing  
We'll be losing control

And when we step to the floor  
DJ is gonna make sure  
This is where the party started

If you can't dance baby  
If you can't dance  
Nobody's gonna stop and stare  
It will be alright, cos baby tonight  
The music's gonna take you there

If you can't dance baby if you can't dance

There's no competition  
No rules, no conditions come on  
Now they're playing our song

If you can't dance baby if you can't dance

Move to the new and the old school  
The sun goes down and the beat goes on  
There's something for everyone

If you can't dance baby if you can't dance

And when we step to the floor  
DJ is gonna make sure  
This is where the party started

If you can't dance baby  
If you can't dance  
Nobody's gonna stop and stare  
It will be alright, cos baby tonight  
The music's gonna take you there

If you can't dance baby if you can't dance  
Just feel the beat in your heart  
That's where the rhythm will start

And when we step to the floor  
DJ is gonna make sure  
This is where the party started, started

If you can't dance baby  
If you can't dance  
Nobody's gonna stop and stare  
It will be alright, cos baby tonight  
The music's gonna take you there

It will be alright, cos baby tonight  
The music's gonna take you there

If you can't dance baby if you can't dance
