

# Shake It

Sámer Issa

Shake it till it hits the ground, movin'  
don't you stop it now.  
Shake it till it hits the ground.

Drop it on the ground ,  
lemme see ya move it to the beat,  
move it all around.  
All the fellas in the crowd say:  
shake that thang!  
Drop it on the ground,  
lemme see you move it to the beat,  
move it all around.  
All the fellas in the crowd say:  
shake that thang!

Love all the ways you move.  
It's really doin' things to me.  
So hot when you drop it down,  
pop it when you know I see.  
Keep doin' what you do.  
Can you feel it when your back's on me?  
Less I can take you home,  
better not stop until the DJ freeze.

Here it comes:  
Okay, baby, see you shakin' it down,  
drop it down till your cheeks steady tappin' the ground.  
You got the whole club watchin' your back,  
all rhe fellas in this rock thinkin' to give it a smack.  
Love the way you wind down.  
I wish she was minenow,  
take you to the house,  
make you shout out.  
If I can't have you now today,  
catch me up in the club while baby girl  
shake that thang.

And I can't pretend that I don't see you dancin' there.  
From around the way, soft skin, and long, dark hair.  
How'd you get here? Where you from?  
I gotta have you alone. Before I walk,  
I wanna know are you down to roll.

Every time you move,  
it makes it hard to breathe,  
and the things you do with the beat

makes me want to get with you.
