

Healing

Sami Yusuf

It's so hard to explain
What I'm feeling
But I guess it's ok
Cause I'll keep believing

There's something deep inside
Something that's calling
It's calling you and I
It's taking us up high

Healing,
a simple act of kindness bring such meaning
A Smile can change a life let's start believing
And feeling, let's start healing

Heal and you will be healed
Break every border
Give and you will receive
It's nature's order

There is a hidden force
Pulling us closer
It's pulling YOU and I
It's pulling us up high

To Healing,
a simple act of kindness brings such meaning
A Smile can change a life lets start believing
And feeling, let's start healing

Hearts in the hand of another heart and in God's hand are all hearts
An eye takes care of another eye and from God's eye nothing hides

Seek only to give and you'll receive
So, heal and you will be healed
And feeling, let's start healing
