

## Did You Change

Samiam

When you met the new addition  
It was like you didn't care  
And here we thought you'd be smitten  
He's got blue eyes & blond hair

You moved to the desert but you're never happy there  
Everything's over conditioned in your mind and the air

Have you always been this way or did you change?

I guess you just want us to miss you  
That's why you're so far away  
Where only the TV news can reach you  
Let them tell you what to fear
