

No Size That Small

Samiam

What do you want? I can't believe I'm guessing
It seems like something's out of place
I picture myself a happy man
And the picture don't contain your face

Ride the manic roller coaster
Watch you rise, watch you fall
Who in the hell designed this ride?
There ain't no size this small

No size that small

I feel the world spinning beneath my feet
I can feel the sunlight pulling me in
I can't feel you, just so you know
Ain't no size that small

I hear the people on the street
Loud and clear like the voices in my head
I can't hear you, just so you know
Ain't no size that small
