

## Take Care

Samiam

I hope you got the help you needed  
I'm so sorry for the way I treated you  
Didn't know you were so defenseless  
If you don't regain your senses someday soon

If you come down I hope you land safely  
I know you think the world's fucking crazy but it's you  
Maybe you went home to your family  
If they exist never know how much of what you say is true

Who'll take care of you  
Who'll take care of you  
Who'll take care of you  
When no one else will

Never thought you had a thing worth breaking  
Don't know how I ever could have been so cruel  
You needed to be protected  
But once you make up your mind there's no persuading you

Who's gonna take care of you  
Who's gonna take care of you  
Who's gonna take care of you  
When no one else will
