

# When We're Together

Samiam

When we're together  
You know it's only make believe  
You need somebody  
But you know you can't count on me  
You've gotten used to  
Having somebody around

This ain't no kind of life  
It's just an addiction  
Why you wanna write  
Your story in fiction  
It's time to give it up and move on

Can we keep it a secret  
Cause it feels like we're breaking the law  
Despite your intentions  
It always feels so wrong  
I keep on waiting  
For the sound of the next foot to fall

This ain't no kind of life  
It's just an addiction  
Why you wanna write  
Your story in fiction  
This can't be all you have to look forward to

When we're together  
You know it's only make believe  
You want attention  
Are you sure that you want it from me  
Have you been hoping  
For someone new to come around

This ain't no kind of life  
It's just an addiction  
You're never gonna get  
The things you've been wishing  
It's time to give it up and move on
