

You're sittin' in your hole again  
Down sad and alone again  
You see something that makes you feel complete  
Then it's gone and you're down again

You're playin' on the edge again  
Don't push or you might fall  
You're playin' on the edge again  
Now you might fall

You're playin' on the edge again  
Don't push or you might fall  
You're playin' on the edge again  
Now you might fall

You see something that makes you feel complete  
Then it's gone and you're down again

You're playin' on the edge again  
Don't push or you might fall  
You're playin' on the edge again  
Now you might fall

You're playin' on the edge again  
Don't push or you might fall  
You're playin' on the edge again  
Now you might fall

You see something that makes you feel complete  
Then it's gone and you're down again
